Dear OMGN Colleagues and Friends,

It is our great pleasure to invite you to attend the annual Oomycete Molecular Genetics (OMGN) Meeting, which will be held in Nanjing Agricultural University (Nanjing, China) on May 25-28, 2012. Your special expertise will provide a most valued contribution to the meeting.

The meeting will be the platform for researchers all over the world to discuss latest developments and to exchange new ideas for future projects and to improve cooperation. The meeting will bring together over 300 leading scientists and researchers in oomycete research and there will be many selected top level scientists as speakers. This year’s keynote speakers will be Dr. Kasturi Haldar in University of Notre Dame, http://www.nd.edu/~haldarlb/, Dr. Youliang Peng in Chinese Agricultural University, and Dr. Jianmin Zhou in Institute of Genetics and Development Biology in CAS, http://sourcedb.genetics.cas.cn/zw/zjrck/201202/t20120227_3446231.html.

We believe that the OMGN 2012 Meeting will be beneficial to all; the participants, sponsors, and exhibitors. The success of the meeting will be ensured with your kind contributions. The organizers are looking forward to welcoming you to the exciting city of Nanjing on May 2012.

The local organizers are Yuanchao Wang, Daolong Dou, and Suomeng Dong. Email contact: omgn2012@njau.edu.cn. And the detail information can be found at http://phy.njau.edu.cn/OMGN2012/.

With Best Regards,

Yuanchao Wang
